Arnos Grove Safer Neighbourhood Team April and May 2023

Welcome to the latest Arnos Grove Ward Safer Neighbourhoods Newsletter. This edition covers the crime figures on Arnos Grove Ward for April and May 2023.

Now that summer is on the way people can become complacent about home security. The most common cases of opportunist summer burglary involve offenders that:

Enter an insecure front door while residents are in the back garden

- enter doors that are closed but unlocked at night while residents are asleep
- reach through windows to take valuable items

Crime reduction advice

- Ensure that windows and doors are closed and locked when you are out. Don't leave small windows open believing them to be safe.
- If you want to leave windows open while you sleep, fit window restrictors so they cannot be fully opened, or make sure they are not large enough to allow access to a burglar.
- When out in your garden ensure that windows and doors to the front of the house are secure. It only takes a second for someone to get into your

- home and take things without you noticing.
- Do not leave valuables on display in front of windows or in reach of open windows or doors.
- Ensure that all barbecue and garden equipment and tools are securely locked up in a shed and out of sight. Tools can be used by the potential offender to break in to your home.
- Consider fitting outside security lighting or a visible alarm to help deter burglars. Even using pea shingle or gravel on a driveway and spiky plants in garden beds can help.
- Don't leave any keys near entry points where they can be 'fished' or 'hooked' out through the window, letter box or cat flap.
- Ensure any internal handle operated locks on UPVC doors are fully secured with a key.

A BURGLAR IN THE SHED IS A BURGLAR IN THE HOUSE.

An unlocked shed can open other doors if there are tools inside. To keep burglars out, always lock the outbuildings.

Sheds – Easy pickings?

Offenders see sheds as easy pickings because they are unprotected and lack basic security measures. The buildings often contain property that can be sold on or implements that can be used to force entry into the owner's home.

- Many sheds whilst being of good construction fall short on basic security.
- It is easy to unscrew the ironmongery, steal contents and in some cases replace the screws to make it look as if the shed has not been tampered with.
- By using tamper proof screws or coach bolts together with a good quality pad bar or hasp and staple and close shackled padlock, the shed owner will make it harder for the would-be thief.
- It is also a good idea to bond any window glass in, with mastic to prevent easy removal.
- Ensure all tools and equipment are locked away when not in use.
- High-quality locks should be used on doors.
- A shed alarm can also be installed.
- Post-coding or indelibly marking all property such as lawnmowers, bikes, and tools using ultra-violet pens, Smartwater or engravers.
- Installing security lighting as a deterrent, and plants such as thorny shrubs to act as a barrier at potential access points.

BE SAFE

Going on holiday?

- Make your home look occupied.
- If you're out or going away, ask a trusted neighbour to open and close your curtains for you.
- Ask a neighbour if they don't mind parking their car on your driveway and trimming your garden to make your home look occupied.
- Cut the front and back lawns before you go away and trim any plants that burglars could hide behind.
- Cancel milk and newspaper deliveries.
- Before your holiday, don't advertise that you are going away on Facebook, Twitter etc.

How does a Faraday bag work?

The signals sent by keyless keys are electronic, and work by sending out electrons. A Faraday pouch is effectively a metal mesh inside a fabric or leather bag, and the layers of metal absorb the electrons being sent out by the key, stopping or greatly reducing their emission, and thus giving would-be thieves no signal to clone.

Don't Leave Valuables on Show. It might sound obvious but leaving items on show is an invitation to the opportunist criminal - mobile phones, satnavs and mounts, power leads, money, wallets, handbags, sunglasses, coats, jackets and bags should always be removed from the vehicle or hidden well out of sight.

Lock Doors & Close Windows! Always lock and close the windows of your vehicle when you leave it unattended - be this on the drive, the petrol station forecourt, when deciding your vehicle in the winter or when getting a ticket to park. An unlocked vehicle is the easiest to steal or steal from. A great number of Theft from motor vehicles reported to police is committed when owners leave vehicles unlocked.

Why to Reporting a crime?

We had information that theft from motor vehicles are happening in Arnos Grove and victims are not reporting it to police. If you've been a victim of crime, you'll need to decide whether or not to tell the police. "Is it worth reporting?" "We won't hear back." "It's too difficult to get through on 101." "I don't understand how to report." These are common perceptions on reporting crime and Anti-Social behaviour to the Police. While sharing an incident of crime on a WhatsApp group does help to make others aware of criminal activity, this is not enough to combat crime in society and so it is also imperative to report an incident. It is important to report crime to create a proper database according to our crime threat and crime pattern analysis, to address crime accordingly. If crime is not reported, statistics will not be accurate and police will not be able to address crime correctly. Inaccurate crime statistics cannot show where more resources are needed or where fewer resources are needed as a community grows safer. No crime is too small to be reported and every one of us can play a role in curbing crime in this country by reporting crime. The only value a crime has is that when it is reported it becomes intelligence for police and other security resources to use to fight criminals and get them off our streets," For us to be able to do something, we need to know about it. If you don't tell us, don't assume someone else will.

Many people we visit are asking for ID when we visit them. However, would you know what a real Met Police warrant card looks like?

The one **BELOW** is the real one. Check for the hologram on the warrant card (front and rear), and the signature of the Commissioner NOT the holder.
